Monthly Webinar Series
PacBio Highly Accurate Long-read Sequencing: Gain Comprehensive Views of Genomes and Transcriptomes

Wednesday December 9, 2020
12:00pm - 1:00pm

With PacBio highly accurate long HiFi reads, scientists no longer need to compromise between long read lengths and high data accuracy.

Case Studies using HiFi applications will illustrate:

• De novo sequencing with PacBio: from small to large genomes
• High-resolution view of metagenomes in complex populations
• Isoform and single-cell isoform analysis

Speakers
Amanda Che
Sequencing Sales Specialist, PacBio

Jessica Spangler
Field Applications Specialist, PacBio

Jacob Brandenburg
Sequencing Applications Specialist, PacBio
